GREAT PERFORMANCE & OUTPUT

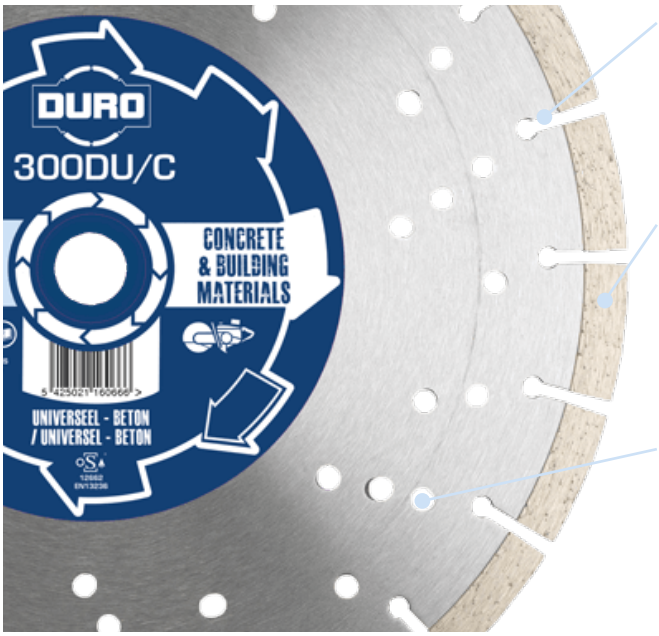

STANDARD | EN 13236 safety standard | 12 mm segment height | hi-tech core | long life | conical segments

USE ME FOR

All concrete types Inc. lightly reinforced
All bricks / hard york stone / quartzite
Occasional use in class A & B engineering bricks / Indian stone
Granite / marble / stone / quartzite/ roof tiles and paviors
Heavy & medium reinforced concrete /asphalt over concrete

FEATURES

Segments > 12 mm Conical
Core > Ventilated
Gullets > Keyhole
Adhesion > Sintered - Cold Pressed (450 mm Laser Welded)
Perform > Great speed of cut & output

KEYHOLE GULLETS
Similar to narrow gullets, key-hole gullets result in less chipping of the material being cut and a reduction in vibration levels

12MM CONICAL SEGMENTS
Consistent segment gaps for lower vibration. Greatr volume of segment for increased product life & decrease in noise due to air distortion in motion

COOLING HOLES
Prevents distortion and overheating of core. Keeping the diamond matrix in segments cool improves speed and life
